Setting up Three Internet and MMS on a Pocket PC device

This article applies to the Pocket PC 2003 and Windows Mobile 5.0 platforms

Setting up the Internet connection

Tap on **Start** and select **Settings**
Tap on the **Connections** tab at the bottom of the screen
Tap on the **Connections** icon
In the **My ISP** section, tap on the option to **Add a new modem connection**
In the **Name** field, type in **Three 3G**
In the **Modem** field, select **Cellular Line (GPRS,3G)**
Tap **Next**
In the **Access Point Name** field, type in **three.co.uk**
Tap **Next**
Leave the **Username**, **Password and Domain** fields blank
Tap **Finish**

Setting up the MMS connection

Tap on **Start** and select **Settings**
Tap on the **Connections** tab at the bottom of the screen
Tap on the **Connections** icon
In the **My Work Network** section, tap on the option to **Add a new modem connection**
In the **Name** field, type in **Three MMS**
In the **Modem** field, select **Cellular Line (GPRS,3G)**
Tap **Next**
In the **Access Point Name** field, type in **three.co.uk**
Tap **Next**
Leave the **Username**, **Password** and **Domain** fields blank
Tap **Finish**
In the **My Work Network** section, tap on the option to **Manage existing connections**
Tap on the **Proxy Settings** tab at the bottom of the screen
Tick the option **This network connects to the Internet**
Tick the option **This network uses a proxy server to connect to the Internet**
Tap on the **Advanced** button
Tap on the entry for **WAP**
In the Server field enter **217.171.129.002**
In the **Port** field enter **8799**
Leave the User Name, Password and Domain fields blank.
Tap **OK** 3 times to save the settings

Setting up the MMS account

Tap on **Start** and select **Messaging**
Tap on the **Menu** button and select **MMS Configuration**
On the **Preferences** tab, scroll down to **Photo Resolution**. Set the option to **VGA (640x480**)
Tap on the **Servers** tab at the bottom of the screen
Tap on the **New** button
In the **Server Name** field enter **Three MMS**
In the **Gateway** field enter **217.171.129.002**
In the **Port Number** field enter **9201**
In the **Server Address** field enter http://mms.um.three.co.uk:10021/mmsc

In the **Connect Via** field, select **Three MMS**
Set the **Sending size limitation** to **250K**
Set the **WAP Version** to **WAP 1.2**
Tap **OK**
Tap the **Set As Default** button
Tap **OK**

Your device has now been configured.
